

Electrical Plugs on Premium Drain Master Switches

- This bulletin only applies if you are replacing a switch. If you order a valve kit, your plugs will be compatible.

Pt. 5528 comes with 4 pin electrical plug that look like this.

4 Pin Plug

The switch plug will mate with either your Drain Master (Premium) valve or an extension cable. If the plugs on your switch look like the pictures below, you'll need to **request 2 pin plugs on your switch** when you order. How do you do this? Add Pt 5528 to your cart, then when you're going through check out, add a note in the comments section and we'll change out the plug before shipping.
